8 September 1960

MEMORANDIM FOR: Assistant Director for Central Reference

SIB.BCT:

Request for Publications of the Goodsey, Intelligence and Mayping Research and Bevalogment Agency, Corps of Hagineers, Department of the Army (GIMRADA)

- 1. It is requested that CCR make arresponents with the Department of the Army for obtaining one copy such of all future publications of the above-mentioned Agency, implicating status reports, reports of sentractors, and special reports on research and development activities of SDSADA.
- 2. This new agency has essumed "...all functions of research and development previously immilied by Army Map Service and Engineer Research and Development Laboratories' Topographic Department, including the letting of contracts for such necessary services as may be furnished by outside agencies." (Department of Defense News Release No. 919-60, dated 10 August 1960)
- 3. These reports should be routed to the CRM Bending Funel for direct routing to the Map Library Division, Atta: SCHD. The Map Library will be responsible for such routing within the Geographic Research Area as may be required. This request for one copy each should be in midition to present and future requirements of other components of CIA. Material up to and including for Secret should be obtained. If reports are published that require special channels or controls, appropriate arrangements should be made to include this type of material.
- i. Since much of the information being published by GDEADA has a direct bearing on the functions and responsibilities of the Geographic Research Area, it would be appreciated if an appropriate priority scald be given to this request.
